

Crisis Care Concordat | Mental Health Cumbria-Action Plan Update

Introduction

Cumbria established a crisis care concordat delivery group in October to support the objectives of the Cumbria action plan. This has seen a transition from a task and finish group to a focussed group which will manage the delivery of the tasks associated with the wider action plan.

This group is supported by a Mental Health Programme Office which also has responsibility to support the delivery of the Cumbria Mental Health Transformational Programme. The Crisis Care Delivery Group is also part of the governance arrangements of this wider programme and report progress to the Cumbria Mental Health Programme Board which is a collaborative board consisting of statutory organisations (Health and Care) as well as Third Sector providers, service users and Constabulary

Outcomes

The Cumbria Crisis Care Delivery Group has designed a range of outcomes for the next 6 months which are included in the uploaded delivery plan. These outcomes are initially focussed on triage, Section 136 and out of hour's assessments and are cross referenced to the Cumbria action plan.

The delivery plan will consider three phases and is designed to establish a step change in the delivery of crisis care in Cumbria

- Phase 1- to establish a crisis helpline and professional point of contact to support triage and Section 136.
- Phase 2- more complete service redesign for crisis care for triage, out of hours assessment and Section 136 and support the development of the Cumbria Model of Care Programme for Mental Health.
- Phase 3- completion of a comprehensive business case for crisis centres including the designs and implemented services of phases 1 and 2

Working in partnership.

The Cumbria Crisis Care Concordat is part of the wider Mental Health transformational Programme and has strong links with the Mental Health Partnership groups as previously mentioned.

The schematic below shows how the crisis care delivery group fits with the wider partnership and strategic governance arrangements.

Local monitoring & work around Section 136

Cumbria Crisis Care Concordat are making progress on the process to reduce the use of police cells to hold over-18s detained under Section 136 and making it a 'never event' for under-18s through its delivery plan. As identified earlier this will progress through 3 distinct phases of work and be programme managed through the wider Mental Health PMO for Cumbria.

As part of the delivery the Crisis Care Delivery group will report monthly to the Mental Health Programme Board who will take responsibility for managing risks and issues associated with the delivery of the outcomes

Evaluations

Supporting the Crisis Care Concordat will be a business intelligence enabling Work stream which is currently working on a programme to develop a 'single version of the truth' for Cumbria which will lead to the development of a mental health performance framework. The performance framework will be cross organisation and integrated to provide a consistent analysis of the current performance of services supporting people in crisis as well as the wider mental health provision.

Challenges

The Cumbria Crisis Care concordat faces similar challenges across all its partner organisations relating to resources both human and financial. The Concordat is facing these challenges in partnership and aiming for economies of scale across organisations to deliver the required outcomes.

Cumbria is also geographically challenging with a low population across a wide geographical area which also has populations in isolated communities posing challenges for services to provide immediate responses.

Delivery Plan

Crisis Care Concordat Delivery plan								
Urgent Assessment and Triage (National Actions Triage; Out of Hours; Sect 136; Unscheduled assessments; Training)								
PMO ref	Action	Timescale	Financial implication	Led by	Outcomes	Progress/ milestones	RAG	National ref
MILESTONE	START UP	Nov-15	None	Janice Horrocks				
C0008_GM	Establish the Crisis Care Concordat delivery group, to undertake and oversee the necessary actions to deliver the project. Ensure links to out of hours assessment, the 136 protocol review group, section 12 working group, Cumbria clinical Justice and mental Health steering Group and mental health training	Nov-15	None	Janice Horrocks	The group reflects active involvement in delivering the national crisis care concordat action plan. The group is representative of the structures identified in the Mental Health Strategy and supports the vision.	Terms of reference produced and to be reviewed 19th October 2015.		1.1; 2.1; 3.1

C0008_GM	Identify resources required to deliver the triage projects and agreed models through the PDSA rapid test cycle. Complete bid criteria for PCC to establish required resources.	Nov-15		PMO	Coordinated bid for the initial telephone support and followed up with facilitated process mapping for the wider programme of work			
	The crisis care concordat will work to deliver the Model of Care design programme and identify members for the design group.	Jan-16		DRAFT	Group linked into to the Model of Care programme of work.			
C0008_GM	Identify links with the liaison psychiatry Work stream to report progress to the Crisis Care Concordat delivery group and vice versa. Action the recommendations of the RICHES review in line with the Crisis Care concordat delivery plan.	Nov-15	None	Stuart Beatson	Links made and information sharing to support the development of the model of care, Crisis Centre design and liaison psychiatry project			5
